District in Grip of Cold Weather

After four days of bitterly cold weather the fore part of last week, the temperature advanced Thursday till it stood at freezing point during the middle of the day, but fell off again at night and by Friday morning was down below zero. During the day and all day Saturday the mercury hovered about the zero mark and 6 below. On Sunday the temperature rose steadily through the day and snow commenced to fall about noon and continued well into the afternoon. On Monday the thermometer registered between 15 and 31 above. Yesterday the range was between 17 and 26 above. This morning was foggy and raw, temperature 18 above.

WEDDING

MYDLAND-KOWALSKY

The wedding of Miss Elsie Kowalsky and Mr Gundar Mydland was solemnized in the United Church, Oyen, on Wednesday, November 25, Rev. E. F. Kemp, officiating.

The ceremony was performed at 4 o'clock in the afternoon, the church being beautifully decorated for the occasion with a profusion of plants and flowers. This is the first wedding that has taken place in the new church.

Miss Lily Holen acted as bridesmaid and Mr. John Black supported the groom.

The newlyweds expect to leave Oyen shortly for High River, where they will make their home.

Canadian Pacific is Leader in Team Work And Good Will With Organized Labor Bodies

Nearly 46 years ago the Canadian Pacific set the pace for the other railroads on the American continent, by completing the first known agreement for railway employees, in the establishing of a schedule of regulations and rates for engine-men between Montreal and Chalk River, Ont., dated February 1, 1886.

The story is told in the "Railway Carman's Journal," by J. A. P. Haydon, "Labor's Canadian representative, a brief resume of whose article follows here—

Looking back on the half-century of the company's history, the event seems almost prophetic in its importance for as Mr. Haydon points out, it is doubtful if any organization has been maintained and is continuing to maintain such good relations with its workers. Today, if different labor bodies are recognized by the company, collective discussion has replaced individual dealings; conciliation replaces strikes and lockouts and, in a word, team work is the order of the day.

Neither the Brotherhood of Locomotive Engineers nor the Brotherhood of Locomotive Firemen and Enginemen has ever been involved in a strike or lockout with the C.P.R. Hugh Richmond, general chairman of the general grievance committee of the latter organization, says: "The best of relations have always existed and still continue between our organizations and the com-

pany." Thus, today, the fruit of the pact of 1886 is still being harvested. Similar experiences can be culled from many other branches of organized railway work. For example, Hon. G. D. Robertson, Minister of Labor and for many

about 1890, however, the employees felt that the railway, then being well established and making steady progress with substantial assistance from government sources, should give consideration to its employees welfare and safe flows. The employees, recognizing that railways are not charitable institutions, organized, and through their elected representatives negotiated with the Canadian Pacific Railway Company to establish contractual relations covering working conditions and rates of pay.

Thus the Canadian Pacific was the first railway in Canada to extend general recognition of the principle of collective bargaining and union recognition to employees. "For about 30 years, or from 1886 to 1916 the Canadian Pacific Railway has been foremost of all railways in Canada in extending courteous, reasonable treatment to its employees, while during the past ten years it has rigidly co-operated with other lines, thereby standardizing and stabilizing the whole railway wage situation." The picture shows W. J. Stevens, an engineer with 44 years of service; his

son, G. W. Stevens, who has been 19 years with the C.P.R., and the father's son, Clifford H. Stevens, aged 17 who is said to be the representative of the third generation on the footplate. What more eloquent testimony of good relations between the company and its employees could be found?

Village of Oyen

NOTICE to Relatives of Persons on the Assessment Roll and to Tenants.

NOTICE IS HEREBY GIVEN that during the months of October and November, applications may be made under the provisions of section 108 of the Village Act for inclusion in the Voters List of the Village of Oyen. The wife, husband, father and mother and every son and daughter of any person whose name appears upon the Assessment Roll are entitled to be placed upon the said list—

- (a) if he or she is resident with the said person within the Village or assists him in a business in respect of which he is taxable; and
- (b) if he or she is of the full age of twenty-one years; and
- (c) if his or her name does not already appear on the roll; and
- (d) if he or she duly makes application in accordance with this notice.

All tenants who have rented an assessed parcel for a period of twelve months immediately preceding the last day of September of this year and who duly make application during the months of October and November, are entitled to be placed upon the said list.

For this purpose the office of the Secretary-Treasurer will be open during the usual office hours every day in the said months which is not a legal holiday.

Any corporation the name of which is entered upon the Voters List may vote by any person being an officer, member or employee of the Corporation if he is not otherwise entitled to vote. Such person shall, before voting, produce a certificate from the head office of the corporation in question, authorizing him to represent it and shall make and subscribe the required oath.

F. C. BLISS,

Secretary-Treasurer,
Oyen, Alta., September 29, 1931.

THE OYEN NEWS

Interesting Theory Is Held That Lunar Cycles And Sun Spots Have A Definite Effect On Weather

Foresters and hunters returning from the foothill district south and west of Edmonton report this year a tremendous increase in the number of field mice. Colonies of these little animals have reached such proportions that in some areas they are blamed with undermining large trees, leaving them with severed roots and little foothold in the earth. In some instances it is stated that large trees have fallen in quiet gentle winds. While experienced foresters doubt if the mice can be held responsible for felling timber, pointing out that many of the trees in the affected district are "over-mature" and likely to crash, they do agree that the mice are more plentiful. They ascribe to the "cycle" of Dr. Rowland S. McLaughlin, by observation, fixed this as recurring every four years. Rabbits, as well-known, have been plentiful every nine years, even to the point of running whole districts, only to die off again in large numbers in the cyclic progression.

Scientists have been studying these strange cycles of abundant yield, only last summer the forest was held in the forests of Quebec, attributed by experts from many countries to the eleven-and-a-half year sun spot cycle seem to have been abandoned as a result of the information they exchanged. Many follow the nine-year cycle. Every nine or ten years there is recorded a tremendous increase in their numbers, and then, just as suddenly, there comes disease and they die by the million.

Generally speaking, it was found that about every nine years there were times of abundant productivity in plant and animal life covering most of the North American continent. The increase or decrease in the animal life was found to begin in the far north and to work its way southward and northward, reaching southeastern Canada after three years or so. Some of the most interesting cycles were ascribed by Dr. Ralph E. Delury, assistant director of the Dominion observatory at Ottawa. He pointed out that the cycle of nine and a half years is but little longer than the lunar cycle of another lunar cycle of 38.9 years.

These two cycles of activity may influence climate by stirring up ocean to the surface and thus influence rainfall, allowing old layers to come atmospheric pressure and clouds. Dr. Ellsworth Huntington supplied significant support for this lunar cycle of drought and of agricultural productivity in the United States, with a period of 18.6 years when measured by the five cycles between 1837 and 1930. During the same time there have been six financial periods separated by five normal periods each of 3.4.

In his paper, Dr. Delury suggested that there are three influences controlling these cycles—a sun spot cycle of 11.2 years average and the two lunar cycles already referred to. He stated also that the yearly deviation of the earth's axis and its yearly revolution about the sun would provide a definite rhythm in life and climate. But even yet scientists are not ready to accept any explanation of cycles as final. They have been known and studied for hundreds of years. There was a cyclic law promulgated in India many centuries ago. Possibly in a few more centuries all cycles may be charted, thus cause definitely discovered. Once that is done, predicting the future will be routine, but even then it is doubtful if all men will be ready to meet the rainy day.—Edmonton Journal.

A little microphone which can be attached to the buttonhole has been devised to enable speakers to move about a platform more freely than when facing the ordinary broadcast rig outfit.

Heat expanded one of the New York City bridges so much, on one August day this past summer, that the bridge could not be closed for an hour and 20 minutes.

"Watch, bring me another steak, this knife won't cut."—Burr Hurns, Madrid.

Place Men On Farms

Saskatchewan Government Has Plan To Assist Unemployed

Plans for the placing of single unemployed men on farms in the drought areas of Saskatchewan, under the government assistance scheme, have been adopted, according to Hon. J. A. Merkle, Minister of Railways, Labor and Industries. Under this plan, provision is made for the government paying the men \$5 per month allowance and the farmer \$10 per month, in certain cases.

Payment of such sums are governed by special circumstances. According to department officials, already received, and they are arriving daily at the rate of nearly 200.

The scheme is instituted with a two-fold purpose: first, of supplying needy farmers in the drought areas with necessary help, and secondly, to obtain employment for qualified farm laborers at present unemployed in the urban centres of the province. Regulations for the placing of single unemployed men on farms on a plan somewhat similar to that adopted for the placing of men are being prepared.

Boosted His Class

Greek Music Master Had Novel Method Of Conducting Pupils

In classical Athens 1,500 years ago, music was a very important subject in the curriculum of a boy's school. Intensive study of vocal music, and playing of the lyre, began at a boy's third year. The playing of the lyre was left to professionals, as it distorted the face. Sometimes, however, music was not justified of her children, for it is related that a music master of the time, could only obtain two pupils. But in his studio were the statues of the appropriate deities of the nine Muses and Apollo to wit. And when this music teacher was asked how many pupils he had he would reply: "With the help of the gods, twelve!"

A Pious Bird

Daniel McCann, last survivor of the proud sextette which raised a young eagle into perhaps the most famous bird in American history, was buried recently at Eau Claire, Wis. McCann, 77 years old, helped care for "Old Abe," the Civil War eagle that P. T. Barnum tried to buy for \$20,000, until its death.

Winter Feeding Of Beef Herd

Feeding Should Be Largely Governed By Condition Of Cattle When They Go Into Winter Quarters

The kinds and amounts of feeds used in the winter feeding of the beef herd should be governed to a large extent by the condition of the cows and young stock when they go into winter quarters. If they go into the winter in poor condition, due to a shortage of feed on pasture, grain should be added to the ration fed to the herd cows to get them into fair condition before calving, and also to cows nursing their calves if good condition on both cow and calf is desired. Cows in calf should not be allowed to run down in flesh, else they will be unable to produce vigorous calves and nourish them with a good flow of milk.

At the Dominion Experimental Station, Lacombe, Alberta, silage made from corn, sunflowers, or beets forms the principal part of the winter ration for the beef herd. Cows and calves relish it and thrive on it when some supplement is added. The silage has laxative properties which help the digestive organs of the animals in good condition. The usual quantity of silage fed is about three pounds per day for each one hundred pounds of live weight. The silage is supplemented with good hay (legume preferred) and other roughage, such as "cut hay" or green feed. The usual practice is to give the herd all the hay or green feed they will consume twice daily without unnecessary waste. If, however, hay is scarce or high in price the amount of hay is reduced and more silage fed.

In order to keep the young stock growing and thrifty and the cows that are nursing calves up in condition, some grain is fed. Oats, which forms the basis of the ration, is mixed with barley, a little bran, and a little oil-cake meal. Grain rations for such young stock and cows will vary from one to two pounds per day up to six or eight pounds, according to conditions.

The breeding herd is turned out to the pastures except in stormy or unusually severe weather. In the yard which is sheltered from the prevailing winds, water is always available in a trough with a tank heater and coarse salt is placed in boxes in the yard where the cattle can lick it at will. Lacombe Experimental Farm Note.

Chlorine was discovered in 1774, by Carl Wilhelm Scheele, a Swedish scientist, when he poured concentrated hydrochloric acid upon manganese dioxide.

Pretty soon it will be time to turn the first sod in the grave of Old Man Depression.

Geologists Find Traces Of Wealth

Report Following Field Work Survey Will Be Interesting

Field work in connection with the geological survey service of Canada is over for the year, all parties having returned to Ottawa to prepare their reports. Additional information respecting the vast stores of Canada's untold mineral wealth will follow from these compilations, several of the groups having devoted themselves to the acquisition of data in that connection.

In northeastern Manitoba geological conditions of an area several hundred square miles in extent in the Oxford Lake district are declared to be favorable for gold prospecting. Dr. F. Wright carried out the survey in this region.

Keen search for new sources of this metal is in progress in British Columbia. Dr. G. Hanson and Dr. H. C. Gunning conducted the operations on the Pacific Coast and report increasing production from placers.

Geographical and geological exploration of a large area of sedimentary and volcanic rocks near Hudson Bay, engaged the attention of Dr. L. V. Weeks. Observation flights over the whole area were made by airplane in addition to numerous canoe trips. At the close of the season the party was conveyed from Rankin Bay to Churchill, whence it returned to Ottawa.

Coal For Wheat

Proposal That Canada Buy British Coal On Barter Basis

Lord Gainsford, former president of the Federation of British Industries, stated recently that he contemplated the day when Canada might buy British coal in exchange for wheat on a barter basis.

He advocated the adoption of barter between Great Britain and Canada as a means of short circuiting difficulties arising out of currency complications and suggested Canada might import British coal on this basis rather than take 16,000,000 tons annually from the United States.

Bill Boards For Air Tourists

The billboard cure has taken to the air after having adopted all of the scenery along the country's highways. A sign has been erected near the airport at Tulsa, Oklahoma, which is constructed that anyone passing there can read the advertising message from the sky.

An anthropological laboratory costing \$500,000 was recently opened in Santa Fe, N.M., to study the early days of mankind.

Albino crocodiles are held in veneration by natives of Nigeria.

Back To The Land Movement Has Reached Heavy Volume During The Past Two Years

New Aid For Deaf

Machine Not Yet Perfected But Great Help

The deaf soon may hear through their fingers, thanks to an apparatus which causes spoken words to tingle on the skin.

Dr. Robert H. Gaul, professor of psychology at Northwestern University, Evanston, Illinois, and inventor of the machine, demonstrated its operation showing how various words "feel" differently. The apparatus consists of a small vibrator in the hand of a deaf person, connected with a microphone through a battery. When words are spoken in the microphone the vibrator buzzes.

"The words 'automobile' and 'university,' for example," said Dr. Gaul, "do not feel alike. The difference in feel is similar to that between a cake of soap and a keg of nails."

Dr. Gaul said that "feeling speech" still was not a complete success, but that it was a tremendous aid to the deaf, when combined with the visual process of lip-reading.

Two exceptionally alert deaf subjects, however, have been able to feel stories of 250 words which they had never read before Dr. Gaul said.

More Americans Are Settling In Canada

Tide Of Immigration Flows The Other Way Now

The flow has reversed in regard to immigration between Canada and the United States. Instead of Canadians crossing the border to seek their fortunes, citizens of United States are coming to Canada.

In the three months, July, August, and September, no fewer than 1,381 Americans came to Canada to settle, and this number included 1,343 of English descent, 473 of Irish parentage, and 490 of Scottish descent. In the same period of time a total of 2,965 emigrated to Canada from the British Isles and European countries. Those from the British Isles numbered 212 Irish, 1,112 English, 443 Scottish, and 400 of Scotch descent.

Immigration regulations require that the newcomers must have enough money to tide them over for one year.

Hubby — "Another new dress? Where am I to get the money to pay for it?"

Wife — "Your financial adviser."

CELEBRATING THE NEW RELATIONSHIPS BETWEEN TWO SISTER DOMINIONS

Photos show: Top left, a group of the welcoming delegation including J. R. Macgregor, Australian Trade Commissioner in Canada; Hon. Leoy MacAulley for Ontario; T. A. Hyland, heading the visiting British Freight Trade Manager, in the background; lower left, one of the pair of young kangaroos aboard the vessel; lower right, B.S. City of Toronto on arrival with the first load of produce coming off—Canada Steamship Lines Photographs.

Springing out of a desire to return

to the land, the back-to-the-land movement in Canada has attained such volume that in the past two years, more than 43,000 persons have been transferred from city to country.

The movement has been singularly steady ever since the industrial depression became severe. It is not the result of government propaganda, of any campaign to "influence" city unemployed in favor of agriculture. In every case, the request for transfer has come from the individual. No pressure is being exerted from Ottawa to stimulate the movement and no financial assistance is being given.

Federal officials believe that what has happened is that thousands of farm boys and farmers left their farms in the years of prosperity to go to the cities, work in industry, enjoy the bright lights. The government is trying to make the task easy and is meeting with tremendous success.

The 40,000 odd who have been located are spread fairly uniformly across the Dominion. They comprise 3,000 with families and 35,000 single men. The general direction of the movement is toward the colonization of the prairie provinces. The government, immediately the demand arose, the department invited the two railway companies, both large land owners, to co-operate.

The land officials of the railways, together with the field force of the land settlement, have been careful surveys of rural Canada to discover farmers who desired a hired man. The railways had many valuable properties, as had the settlement board.

The business of connecting the city unemployed with the desired rural location then began. Single men were found positions they have desired, and wherever possible, were placed under contract for one year.

Married men were found close to the cities in which they lived, and within a reasonable time payments at low interest also were arranged.

It was found that thousands of married men, unemployed and with little hope of employment, are not penniless. They have savings of from \$200 to \$500, sometimes more, and this is sufficient to make a small payment and leave something for the initial expenses.

So general is the desire of unemployed to go on the land, that many agencies outside the three mentioned, are becoming active. Some effort will be made to bring these agencies under central direction in the immediate future. This will prevent duplication of work and will ensure uniformity of treatment. The view prevalent at Ottawa, that the soundest policy is one which refuses all subsidies or financial aid. In this way, those placed on farms are believed to have a better chance of permanent success.

Railway Crossing Accidents

Report For Month Of August gives Number Of Deaths As Seven

Deaths as a result of railway crossing accidents in August numbered seven, according to a report issued by the Board of Railway Commissioners. There were 18 accidents, and besides those killed, 26 were injured.

By province, Ontario led in accidents with eight, Quebec had four, Manitoba two, Alberta three, and Saskatchewan one.

The total for the month of other accidents in connection with railways was 212, in which 20 persons were killed and 241 injured.

An organ with a bronze keyboard and silver pipes was found not long ago at the site of the Roman city Aquilinum, and is believed to date from the third century B.C.

Personal Greeting Cards

Only four weeks till Christmas. Order your personal Greeting Cards now, and take advantage of our special offer during November.

The Oyen News

About Town and Country

Eyes examined at the hotel in Oyen, Saturday, Nov. 28. E. J. Anderson, B.Sc., from Calgary, in attendance.

The C.W.L. will hold a whist drive and dance at the home of Mr. J. J. Kelly on Thursday, Nov. 25, commencing at 8 p.m. Admission 50 cents.

Mr. R. Cates left last Tuesday for Calgary, where he will attend the Wheat Pool conference.

Alaska creamery will be buying turkeys, ducks, geese and chicken in Oyen on Wednesday Dec. 9. This poultry is for the Christmas trade and will be bought either live or dressed. Those who have poultry to dispose of will do well to get in touch with Mr. J. Shields, Oyen, as we intend this poultry to go direct to the retail trade.

Commencing Sunday, Nov. 29 Sunday trains will be discontinued. Trains will arrive in and depart from Oyen daily except Sunday at the usual hours, Woodhead at 1 a.m. and East-bound at 3:14 a.m.

Look at your address label!

Mr. and Mrs. W. Yake and son Raymond left last Monday for Calgary where Mr. Yake will attend the Wheat Pool conference.

Mr. Claus Fransen of Helmsdale, left last Friday for Calgary, on route to Los Angeles, Calif., where he will spend the winter.

Miss Marjorie Winepear of Calgary, representing Canadian Chautauques, has been in town during the last few days.

Mr. A. R. Kerr, who was a business visitor in Calgary last week, returned to Oyen Friday.

The management of Oyen Theatre announces that Wednesday night shows will be continued till the end of December.

Mrs. Montgomery of Delburne, Alta., who has been staying with her sister, Mrs. W. A. Walker, returned to her home last Friday.

Subscribers are asked to look at the label on their paper. It will show date of expiration of their subscription.

For Sale—Good milk cow and a number of turkeys. Apply to: E. H. Church, Excel, Phone 1211.

Mrs. G. S. Peck, Mrs. J. R. Anderson, Mrs. H. E. Gillespie, Mrs. W. Ostrander, Mrs. C. Kiel and Miss Conlon are working as a committee with Mrs. W. E. Pratt to secure second hand clothing for Red Cross. Parcels may be left at the telephone exchange, Oyen, in care of Miss C. Love. Donations of clothing are urgently needed at once, and a generous response to this appeal is hoped for.

EXCEL NEWS

The annual meeting of Excel U.F.W.A. was held on November 19 at the home of Mrs. S. B. Gullekson; fourteen members and four visitors being present. The meeting was opened by singing Janita and roll call was answered by "What I am most thankful for this year." It was decided to hold a card party on Friday, Nov. 27 at the home of H. L. Bishop, the returns to be divided between Red Cross and Salvation Army; it was also decided to do sewing for Red Cross later in year. Mrs. F. E. Thayer gave a report of the Acadia federal convention held in Hanna. Mrs. C. Gullekson also gave a short account of the life of Sir Gilbert Parker. Mrs. J. R. Anderson was appointed chairman for the annual meeting. The following officers were elected for 1932: Mrs. F. E. Thayer, president, Mrs. E. Gullekson, vice-president, Mrs. C. A. Bishop, secretary-treasurer, and the following were elected directors: Mrs. E. H. Church, Mrs. J. R. Anderson, Mrs. C. Gullekson, Mrs. G. Mehl and Mrs. A. Arneson. Flower committee: Mrs. F. E. Bishop. Auditors: Mrs. H. Anderson and Mrs. Jas. Barker. Six new members joined the Local. The next meeting will be held at the home of Mrs. H. L. Bishop on Dec. 17, with the following ladies in charge: Mrs. Ray Anderson, Mrs. E. Gullekson and Mrs. Littleford.

Mrs. E. G. Lamb and children spent Sunday with her parents Mr. and Mrs. Thos. Steen.

Ice is being made at the Bishop rink and the followers of the roarin' game will soon be dustin' 'em into the house. The annual meeting of the club was held yesterday at the home of F. E. Bishop.

Mr. and Mrs. Howard Cates are now living on the L. Gullekson farm. Mr. Cates will deliver mail on the rural routes during the winter months.

Messrs. Charles Harris, F. Waldo and F. Houston, who motored to Eaglesham, have returned to their home. While on their trip they spent a little time moose hunting.

GOVERNMENT OF THE
DOMINION OF CANADA

National Service Loan

The Minister of Finance offers for public subscription

\$150,000,000

Dominion of Canada 5% Bonds

Bearing interest from 15th November, 1931, and offered in two maturities (the choice of which is optional with the subscriber) as follows:

5 YEAR 5% BONDS, DUE 15th NOVEMBER, 1936
10 YEAR 5% BONDS, DUE 15th NOVEMBER, 1941

Principal payable without charge, in lawful money of Canada, at the office of the Minister of Finance and Receiver General of Canada at Ottawa or at the office of the Assistant Receiver General at Halifax, Saint John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary and Victoria.

Interest payable half-yearly, 15th May and 15th November, in lawful money of Canada, without charge, at any branch in Canada of any Chartered Bank.

Denominations:

5 YEAR BONDS \$100, \$500 and \$1,000
10 YEAR BONDS \$500 and \$1,000

The proceeds of this loan will be used to promote the economic and financial welfare of Canada

The Loan is authorized under Act of the Parliament of Canada, and both principal and interest are charge on the Consolidated Revenue Fund of Canada.

Bearer bonds with coupons will be issued in denominations of \$100, \$500 and \$1,000 in the case of the 5-year bonds and in denominations of \$500 and \$1,000 in the case of the 10-year bonds. These bonds may be registered as to principal.

Fully registered bonds, the interest on which is payable direct to the owner by Government cheque,

will be issued in denominations of \$500, \$1,000, \$5,000, \$10,000 and \$100,000.

Pending preparation of the engraved definitive bonds, bearer interim certificates in denominations of \$100 (for the 5-year bonds only), \$500, \$1,000, \$5,000 and \$100,000, will be delivered on all allotments on subscriptions to this loan. Registration as to principal, or as to both principal and interest, will be effected when the interim certificates are exchanged for definitive bonds, on or about the 1st March, 1932.

ISSUE PRICE: 5 Year Bonds, 99½ and accrued interest
10 Year Bonds, 99 and accrued interest

Payment to be made in full at time of application

Subscription lists to the foregoing will open on 23rd November, 1931, and will close on or before 12th December, 1931, with or without notice, at the discretion of the Minister of Finance. Subscriptions will be received and receipts issued by any branch in Canada of any Chartered Bank and by recognized Dealers. Interim Certificates will be delivered through the bank or dealer designated by the subscriber in the application, upon surrender of the receipt.
